

COMMUNITY
ENERGY SWITCH

WHAT WOULD YOU DO WITH AN EXTRA £254?*

*799 households cut their annual energy bills by an average of 25% (£254) when they switched to cheaper energy tariffs as part of Community Energy Switch's March 2015 collective.

COMMUNITY
ENERGY PLUS

Collective tariff switching in five easy steps

1.

Register free, with no obligation at communityenergyswitch.org.uk or call Freephone 0800 804 7247

2.

Suppliers take part in a reverse auction from which we secure our exclusive winning tariffs

3.

You'll be notified as soon as the collective's winning tariffs are available. You can see how much you'll save and how it compares to other tariffs on the market so that you know that you're getting a great deal

4.

You'll need to agree to switch within the collective's four week switching window. The necessary arrangements will then be made on your behalf by your new supplier

5.

Switching is a seamless process – you won't notice any change to your energy supply and can feel good in the knowledge that you're saving money on your energy bills

Switching options to suit you

Community Energy Switch will offer three collective energy switches a year during February & March, June & July and October & November.

While the greatest savings will be possible during our collective switching periods, we can still help you to get a good deal on your energy bills at other times through our full-market price comparison service.

You have the power to switch to a better deal

You can take part in our collective energy switch if you:

- Pay for your energy bills quarterly or monthly, by direct debit, cash or cheque
- Use a pre-payment meter which is topped up by a card or key
- Own your own home or live in accommodation rented from a private or social landlord
- Have, or have not, switched before
- Are on a fixed tariff with your current supplier
- Live inside Cornwall or elsewhere in the UK, excluding Northern Ireland

Supported by:

Royal Cornwall Hospitals

NHS Trust

Kernow Clinical Commissioning Group

Community Energy Switch is led by Community Energy Plus, a Cornwall based social enterprise and charity with more than 15 years' experience of providing energy solutions for householders in Cornwall.
